

# Smarter Energy for a Better Life

## Huawei FusionHome Smart Energy Solution

### Higher Revenue

- 5-level inverter topology, Max. efficiency of 98.6%, Euro efficiency of 98.0%
- Flexible system design with optimizers, allowing to install more panels

### Simple & Easy

- 10.6kg, ultra-compact, enabling easy installation by one electrician
- Integrated plug & play energy storage interface, easy to add batteries at any time
- Customized AC connector for quick & easy wiring

### Safe & Reliable

- IP65 protection with natural cooling
- Integrated lightning protection for both AC and DC
- Module-level shutdown capability protects homeowners and their assets\*
- Rigorous industry standard testing for higher safety and reliability

### Smart Management

- Supports remote module-level monitoring, reducing servicing costs\*
- The integrated management of energy generation, storage and consumption
- Supports one-click remote upgrade, reducing O&M cost

\* Functions marked by "\*" require Smart PV Safety Box and full Smart PV Optimizer.
