

## Huawei Guideline on Oversizing The Maximum Input Current ( $I_{mp}$ ) per MPPT

Revision History Version 1.0 Oct 2022 - Initial release

**Scope:** Technical guideline on compatibility of inverters and PV modules with values of  $I_{mp}$  higher than the maximum working current for inverter inputs.

As the manufacturer, we hereby confirm that Huawei inverters can be installed with modules having higher  $I_{mp}$  than the maximum input current per MPPT of inverters, if correctly configured according to datasheet information and if short circuit current ( $I_{sc}$ ) values are not exceeded.

If  $I_{mp}$  current is exceeded, then  $I_{mp}$  current is automatically limited by inverter's maximum input current value therefore using such modules will not impact the warranty provided by Huawei.

Huawei Product List
SUN600-5-6KTL-L0
SUN2000-2-6KTL-L1
SUN2000-3-12KTL-M1
SUN2000-8-20KTL-M2
SUN2000-12-25KTL-M5
SUN2000-20-40KTL-M3
SUN2000-50KTL-M3
SUN2000-50-60KTL-M0
SUN2000-100KTL-M0/M1/INM0
SUN2000-110-125KTL-M0
