

Huawei FusionHome  
Smart Energy Solution

# Smarter Energy for a Better Life

## Benefits to Retailers & Installers

### Future Proof – Optimized for PV + Storage

- Storage interface ready for all sizes
- Rapid Shutdown compliant with NEC 2014 & 2017
- Compliant with UL 9540 certification
- Supports backup mode to provide backup power either through PV or battery

### All-in-One

- Simple, elegant, single box design: Storage, Backup, RGM, WLAN, 4G, AFCI, Rapid shutdown functionalities all built in
- RGM with both cellular 4G and WLAN communication options, perfect for TPO (third party ownership) or large fleet operators

### Faster Installation, Easier Maintenance

- Easy installation by just one technician - 7.6kW inverter only weighs 39.7 lb
- Smartphone app-based commissioning
- No LCD & button design for high reliability over the long haul

### Install & Forget

- Industry leading testing protocols for higher product reliability
- Fleet monitoring via app or Web interface
