SmartPID2000 Module
Inside Smart Array Controller

The SmartPID2000 Module is installed in the SmartACU2000B cabinet to reduce the negative effect of the Potential Induced Degradation (PID), and support 1000 V / 1100 V / 1500 V DC system.

**Smart**
Data read and software upgrade through USB or the embedded Web

**Reliable**
Protection degree of IP65

---

SmartPID2000 Solution Diagram

Note:
1. The Anti-PID solution could ONLY be deployed in utility installations which are normally connected to the medium voltage (MV) grid running WITHOUT neutral line.
2. The Anti-PID module must work with Huawei SmartLoggers and Huawei inverters.
